

## **Algonquin College Cooperative Education**

Students are available for four or eight month paid work terms throughout the year. Employers are invited to submit a job posting at any point, with the best time being in the first month of each semester.

Direct feedback from our employers indicate that our Co-op students efficiently adapt to the workplace, offer new perspectives on problems, enhance employee morale, and in many cases, exceed employers' expectations.

The Ontario government provides a refundable tax credit up to \$3,000 to businesses hiring students enrolled in our recognized Co-op programs.

While working on their co-op work term students do not attend classes so they are able to quickly make a contribution to your team. If you want more detail about hiring an Algonquin College Co-op student please do not hesitate to connect with us directly at [www.algonquincollege.com/coop](http://www.algonquincollege.com/coop).
